## SUMMARY

I am a passionate frontend developer with experience in building dynamic and responsive web applications using frameworks such as Next.js, Vue.js, and Tailwind CSS. Skilled in state management with Pinia and Zustand, API integration, and optimizing user experiences. I also have experience in building mobile app frontends using Expo (React Native). Additionally, I work with backend technologies, including PHP, MySQL, and Laravel.

## EXPERIENCE

**Infinite Solutions, Remote—Front-End Developer Intern**

*December 2024 - Present*

- Worked alongside the frontend team to develop a login page, sign-up page, contact page, and
- Developed and deployed a login page, sign-up page, contact page, and subscription feature using Next.js, integrating API endpoints for seamless data exchange.
- Integrated Google Maps to display the firm's location and implemented interactive popups using Zoho for enhanced user engagement.
- Configured environment variables, optimized the production application, and hosted it on Netlify with continuous deployment via GitHub.
- Built dynamic, responsive UIs using Next.js, Tailwind CSS, TypeScript, and Zustand for state management.
- Collaborated in a two-member team to design, refine, and deploy scalable web applications using Agile methodologies.

**HMG Internship, Remote—Front-End Developer Intern**

*Ongoing*

- Designed and developed dynamic user interfaces tailored to client requirements.
- Integrated web applications with modern frameworks and tools like Next.js, Tailwind CSS, and TypeScript.

## Education

**Bachelor of Science (BSc), Mechanical Engineering**
 Lagos State University *(Expected 2025)*

## SKILLS

### Frontend Development

- Next.js, Vue.js, React Native (Expo)
- Tailwind CSS, CSS Modules
- Zustand, Pinia

### Backend Development

- PHP, Laravel
- MySQL, API Development

### Mobile App Development

- React Native (Expo)
- API Integration

### Tools & Version Control

- Git, GitHub, Docker, XAMPP
- Storybook

## Additional Information

- **Languages:** English (Fluent)
- **Soft Skills:** Problem-Solving, Critical Thinking, Communication, Adaptability
- **Interests:** UI/UX Design, Open-Source Contributions, Sci-Fi Movies, Philosophy

- Collaborated on feature implementation, including interactive popups and form optimizations.
- Contributed to code reviews and iterative development processes within Agile workflows.

## PROJECTS

**Framer Project**

- Built an interactive UI with  smooth animations and dynamic transitions.

- Developed a fully responsive design, ensuring a seamless experience across mobile, tablet, and desktop views.

- Used multiple mapped components to enable efficient updates and scalability while focusing on performance optimization to ensure smooth animations across devices.

- Implemented modern design principles with Next.js and Tailwind CSS for a polished, dynamic interface.

- **Live Demo:** https://framer-two-iota.vercel.app/

**Infinite Solutions Official Website**

- Developed and designed the official website for Infinite Solutions using Next.js and Tailwind CSS.

- Implemented multi-page routing for smooth navigation.

- Integrated seamless and fluent animations for an enhanced user experience.

- Utilized API integration for dynamic data handling.

- Built a secure login system with Google authentication.
